Bee Hives and Supplies. Write to W. B. Nilson, Carl Junction, Mo. Mr. C. B. Bush, president of the Gilmer county court, tells briefly his experience with an epidemic of bloody flux in his family. He writes under date of October 8, 1896, at Auburn, Va. "During the past summer we had three cases of bloody flux in our family which we cured in less than one week with Chamberlain's Colic, Cholera and Diarrhoea Remedy. In some instances there were twenty hemorrhages a day. This remedy never failed to cure the worst cases of bloody flux and all bowel complaints and every family should keep it at hand. For sale by W. E. Price.

Ensign Lehy of Kansas City and Adjutant Marshburn of Galena, Kan., will conduct a Salvation Army meeting at Baxter Springs, July 11. Ensign Lehy represents the social work of the army, and brings with him a Kinetograph, Mr. Edison's latest great wonder. It is a sound recording and reproducing machine. Charlie Payne, a former hack-driver in this city, undertook to rob a woman on the train at Wichita the other day, in the following manner: He jumped on the train to solicit business, and it is said he convinced an old lady, who had but 50 cents, that she would have to pay that amount to have her trunk transferred to another depot, notwithstanding the fact that it was checked through. She paid him the money and he started off, but luckily Mr. Crosby learned of the transaction and collared him. He denied having taken the 50 cents from the woman, but when confronted by her he admitted it and Mr. Crosby compelled him to return the money to her—Galena Republican. Payne is the fellow who beat up a woman in this city a year ago last reunion. He is also the same galeot who robbed a woman in Galena of a whole livery stable, but was forced to give it back by the infuriated citizens of that place.

We suppose every town has its strategists and kickers, but it does seem to us that Baxter has more than her share. We have men here who can give the navy and war departments pointers, yet they don't seem to realize that they are overly smart. Seriously, however, those people make sensible persons tired, and we'll bet the weeds need cutting around their premises. We have been under the impression all the while that the administration knows what it is about and will do what is best; and it won't call on Baxter's "lethargy board" either.

A BIG BUSINESS.

In conversation with Mr. C. R. Gould on Thursday of this week he intimated that his implement business so far this year had exceeded his most sanguine expectations. He said he has bought three times as many goods this year as he expected to early in the spring, yet he had found it difficult to keep stocked up.

Mr. Gould's trade territory is getting larger every day. Along in December he bought a full car load of binding twine. Very soon after he bought the price of twine went up, but having bought early Mr. Gould was enabled to undersell the dealers of other towns, and he did so, drawing people who had been in the habit of buying twine at Columbus, Chetopa, Vinita, Afton, Fairland, Seneca and other places. His big stock of twine melted like snow near a red hot stove. Mr. Gould remarked that he "didn't know he would be compelled to supply the whole country." His prices told, however, and while other dealers have plenty of twine left for which they ask high prices, Mr. Gould's stock is almost exhausted.

Mr. Gould seems to be the only man in this section of country dealing in threshing machines, and so far this season he has sold two complete outfits. He sells the celebrated J. I. Case machines.

It is the same way with bale ties that it was with twine. Early in the season Mr. Gould bought five car loads. Already he has sold over two car loads, but he has something like three car loads left in his warehouses. He is making an exceedingly low price on bale ties—30 cents a bundle for one bundle or a hundred. His ties are all made of new wire—no old wire in stock.

At Mr. Gould's big establishment two standard makes of hay presses are sold—the "Lightning" and "Eagle." Both these presses are dandies, being strongly built, making them durable, yet the draught is lighter than that of any other press. He has sold several presses already, and as the hay season has only just commenced he will dispose of many more.

Mr. Gould claims the "Jumbo" and "Champion" hay rakes to be the best made and he says they give universal satisfaction. He has sold several already and many more are spoken for.

The special pride of Mr. Gould, however, at this season of the year is his line of wagons and buggies. He carries the celebrated "Columbia" buggies, the best made in the world and is selling numbers of them. The "Jackson" buggies are also carried in his house and for a general all-purpose vehicle they are mighty hard to beat. His line of surreys, spring wagons, phaetons and road carts is a large one. When it comes to wagons, however, he thinks he is prepared to please the most particular. The "Lansing" wagon is standard, as is also the "Fish Bros." He carries both of these, but we rather believe he is partial to the "Milburn," a hollow lift the ill-bred and select society and places the ignorant saphead in the United States senate; it makes presidents out of stuffed trophies, governors out of intellectual grease, philosophers of fools, a grove it wrecks the altar of in other words pollutes the face of a full cup of justice. It is the goddess of lying machines. It is the Cornicks to be little uncrowned judging from the wealth—W. C. selling they certainly are.

It is a little out of season to mention plows, cultivators, corn planters and harrows, but he has done an enormous business in this line. His force of hands is something like a euchar deck. W. J. Turley is the right bower, Kelly Carmichael the left bower, and Mr. Gould himself the joker.

A DISGRACE. It is a disgrace to Baxter Springs that our elegant city building is in its present deplorable condition. The roof is in horrible shape and when there is a rain great bunches of plastering fall from the city hall ceiling and the walls are soaked. Now we want to know the "Board of Lethargy," commonly known as the city council, will allow this state of affairs to exist. The city hall building needs fixing up and there is no sense in not having it done. If anybody takes exception to this, let them roar. We have a chip on our shoulder.
